

Julius Boce

Penetration Tester | Red Team Operator | Offensive Security Professional

bocejholo@gmail.com | linkedin.com/in/julius-boce | juliusboce.is-pinoy.dev

PROFILE

Cybersecurity Consultant and hands-on red teamer with corporate penetration testing experience. I uncover critical vulnerabilities - from web and network flaws to Active Directory misconfigurations - and help organizations prioritize and remediate them before they can be exploited. Certified offensive security professional and AD Red Team Specialist. I help organizations stay ahead of real threats, one vulnerability at a time.

SKILLS

Offensive / Red Team: Web Application Security (OWASP Top 10), SQL Injection & XSS, Burp Suite, API Security (REST, BOLA/IDOR, JWT, SSRF), Linux Privilege Escalation, Container Escape, System Enumeration, Network Pivoting & SSH Tunneling, Proxychains / Nmap, Active Directory Exploitation, Certificate Services, Exchange Attacks, Lateral Movement & Persistence, ESXi Red Ops, Data Exfiltration, Metasploit, OSINT, Python / Bash / PowerShell, Report Writing, C2 Frameworks (Havoc, Sliver), Caido, Hackbar

Blue Team: Cybersecurity Assessment, Vulnerability Assessment, Risk Assessment, Risk Management Framework, Threat Analysis, Network Security, Intrusion Detection (IDS), SIEM, Information Assurance, Information Security, Information Systems

EXPERIENCE

Cybersecurity Consultant

8boxSolutions Inc. · Jan 2026 - Present

- Led penetration tests across web applications, APIs, and internal networks - uncovering critical vulnerabilities including SQL injection, broken access control, business logic flaws, and other security misconfigurations with potential financial or operational impact.
- Provided PoC-backed reports and actionable fixes that closed high-risk gaps before exploitation.
- Recommended secure-coding and hardening measures mapped to industry frameworks (OWASP, NIST).
